HOW WE REACHED OUR AUDIENCE ?

In today's dynamic market, customer preferences are evolving faster than ever. At **Perfekte Küchen**, we continuously adapt to these changing needs by listening to our customers and innovating accordingly.

Kamal Mittal, Founder of **Perfekte Küchen**, shares:
"Social media plays a powerful role in educating customers and helping them to discover what they truly need. It also gives us insights into whether we should enhance existing products or develop entirely new ones."

Latest Product Innovations

Driven by real-world customer requirements, **Perfekte Küchen** has recently introduced a range of smart and functional products, including:

- Dishrack Elevator
- Self-Screw Shelf Pin
- Push-Open Hinges
- 5D Black Hinges
- Push-Open Slim Box
- Rose Gold Hinges

Challenge 1: Inaccessible Overhead Storage

Many users, especially women, find overhead kitchen storage difficult to use.

Our Solution:

We developed two innovative products—**Dishrack Elevator** and **Glass Elevator**—designed to bring overhead storage within easy reach.

These elevators glide down smoothly and return to their original position effortlessly. Available in 600mm and 900mm widths:

• **Dishrack Elevator** is ideal for plates, cups, bowls, and tumblers.

• **Glass Elevator** is perfect for storing spices, pulses, rice, biscuits, snacks, and more.

Challenge 2: Dislike for Traditional Handles
Customers increasingly prefer handle-less kitchens and wardrobes for a cleaner & modern aesthetic.

Our Solution:

Our **Push-Open Hinges** allow doors to open softly with a gentle push—eliminating the need for handles and adding a contemporary touch to interiors.

Challenge 3: High Cost of Electric Drawers

Electric push-open drawers are convenient but often expensive.

Our Solution:

We've launched manual **Push-Open Drawers** that offer the same ease and smoothness—without electricity. These drawers are energy-efficient, environmentally friendly, and support a 35 kg load per drawer.

Challenge 4: Mismatched Hinge Colours

Matching hinges with modern black and rose gold profile shutters has been a common issue.

Our Solution:

We've introduced **black and rose gold hinges** that perfectly complement today's premium kitchen designs.

Challenge 5: Outdated Shelf Pins

Traditional L-button shelf pins often look outdated and require separate screws.

Our Solution:

Our **Self-Screw Shelf Pins** combine aesthetics with durability. They come with an integrated screw and don't need any additional fittings, making installation quick and neat.

Yogesh Mittal, CEO of **Perfekte Küchen**, shares exciting news:

"We're soon expanding to international markets and increasing brand presence across India. We're also proud of recent milestones and collaborations."

Perfekte Küchen is now advertising through **92.7 Big FM** our official on-air radio partner.

We've been honoured with the **Dream Makers Award**, presented by **bollywood actress Ameesha Patel**.

We actively participate in **B2B exhibitions**, including **Intex Expo, Ludhiana**, and have plans to showcase our innovations across **Rajasthan, Tamil Nadu, West Bengal, Madhya Pradesh, Goa**, and many more.

In 2026, we aim to launch our **Experience Centre in Noida** to bring our premium kitchen solutions closer to customers.

Additionally, **ABP News** is now our official **television media partner**—you can catch our advertisements regularly on the channel.

Perfekte Küchen continues its mission to deliver **trusted german quality kitchen innovations** tailored for the modern Indian lifestyle—blending style, comfort, and smart solutions.
